

Good day and good health.

As many employers shift to virtual employment in Massachusetts and across the Nation responsive to concerns about health and safety of employees and ongoing operation of multiple business entities across multiple employment markets, the issue of compensability for injuries arising out of and in the course of virtual employment come to the fore.

Attached find an article suggesting the length and breadth and viability of any and all kinds of claims for injuries that occur in home by a virtual employee in the course of the employer's business.

Hopefully, better times are ahead through hard social distancing and challenging virtual employment in the coming weeks.

Stay healthy and well.

Contact us with any questions or arrange a Zoom teleconference with your Claims Department regarding adjusting workers' compensation claims in these challenging times.
